

EcoPlush Recycled Fabric

Eco-Conscious Upgrade

We've replaced the standard Valera fabric option with a beautiful, 100% recycled green fabric. This eco-friendly choice is made from post-consumer waste, reducing environmental impact without compromising on style or quality. The new fabric is a line of high-quality textiles made from recycled plastic bottles. Advanta actively supports the use of recycled materials in furniture and interior design.

Green Recycled Fabric Specs:

100% Recycled Polyester

560 kg of recycled plastic per 1000 m of fabric

Width: 142 cm

Weight: 330 g/m²
